EDUCATION

Stanford University

Bachelor of Science in Computer Science

Aug 2018 - May 2022

EXPERIENCE

Software Engineer

Google

Jun 2022 - Present

- Developed and maintained scalable backend services using Python and Go, implemented CI/CD pipelines reducing deployment time by 40%

Software Development Intern

Microsoft

Jun 2021 - Aug 2021

- Built machine learning model improving recommendation accuracy by 25%, optimized database queries reducing response time by 30%

PROJECTS

Personal Website

Web Development

2023

- Built a responsive portfolio website using React and Node.js, implemented CI/CD pipeline with GitHub Actions

Machine Learning Research

Research

2022

- Developed novel algorithm for image classification, achieved 95% accuracy on benchmark dataset

CERTIFICATIONS

AWS Certified Developer

Amazon Web Services

2023

Google Cloud Professional Developer

Google Cloud

2022

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, Go, SQL

Frameworks: React, Node.js, Django, TensorFlow

Tools: Git, Docker, AWS, Kubernetes, Jenkins

Languages: English (Native), Spanish (Professional)
