EDUCATION

Illinois Institute of Technology   Aug. 2024 – May 2026
Bachelor of Arts in Computer Science

Harper College   Aug. 2022 – May 2024
Associate's in Computer Science

EXPERIENCE

Content Creator/Designer   October 2022 – Present
Self Employed
- Grew social media accounts to 2M+ followers through data-driven content strategies and engagement; created daily content and designed merchandise, collaborating with teams to optimize based on feedback; produced visual content using CapCut, Adobe Suite for personal and client projects

Marketing Assistant & YZY App Developer   December 2023 – May 2024
Yeezy
- Identified key influencers for Yeezy merchandise promotion, increasing brand visibility; collaborated with creative teams on marketing materials and promotional content; ensured consistent brand messaging across digital platforms; helped develop and market the YZY app for Kanye West's 2024 product and music rollout; collaborated with a team of developers to build an integrated platform for YZY Supply clothing and exclusive music streaming

Web Developer Intern   January 2023 – August 2023
Adan Technologies
- Developed responsive websites using HTML, CSS, JavaScript, and React; worked with cross-functional teams to deliver client websites on schedule; improved site performance, resulting in an increase in user engagement

Full-Stack Developer Intern   January 2024 – August 2024
Azerty Ltd
- Collaborated with design and dev teams to build interactive, user-friendly websites using React and Node.js, focusing on front-end design and UI/UX for engaging digital experiences on e-commerce platforms; integrated CMS and optimized product listings, helping improve client sales conversions and user engagement

PROJECTS

NBA Game Predictor   2024
Machine Learning Project
- Built a machine learning model to predict NBA game outcomes using historical statistical data; performed data preprocessing and feature engineering with Pandas; deployed the model via a Flask API for user predictions

Instant Resume Builder   2024
Web Application
- Developed a web application that generates LaTeX-based resumes using the Overleaf CLSI API; implemented a user-friendly form interface and customizable templates; set up Dockerized CLSI server and integrated PDF export functionality

TikTok Feedback Bot   2024
Automation Script
- Created an automation bot to submit hourly feedback to TikTok via their web form; utilized Selenium with headless Chrome and rotating user agents to simulate human behavior; implemented logging, error handling, and task scheduling
